REPORT OF THE FOREST FIRE WARDEN

Forest Fires — our Most Shameful Waste

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by

drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public — YOU!

The primary objective of all fire fighters is *prevention* — fire stoppage. This is the goal toward which your forest fire warden and his deputies are constantly working. It can be achieved *only* if *you* and *you* cooperate with them. It is with *your* effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required *written permit* from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

I have been informed by reliable resources that with an outside contractor and no materials donated this dam would have cost no less than \$1,500 and probably \$2,000. The splendid cooperation of the summer residents and townspeople was extremely gratifying. Had not many people given generously of their time, and the response to my requests for funds and materials been so well received, the completion of such an extensive job would have been impossible.

A BLAISDELL LAKE PROPERTY OWNERS ASSOCIATION is being formed. The following committee is drawing up the by-laws: Mr. Earl Little, chairman; Mrs. James A. Rawson, Mr. Herman Forster, Mr. Stanley Lane, Mr. Russell Ellsworth and Mrs. Pat Rooney, Jr.

The association plans to purchase the water rights and dam and to maintain in so far as possible a desirable water level for Blaisdell Lake.

Respectfully submitted,

ESTELLE W. ROONEY

(Mrs. Pat, Jr.)

We are confident that all who are interested in the welfare of our town will join us in expressing sincere appreciation of the efforts of every one who assisted in any way with this project to enhance the beauty and attractiveness of the Blaisdell Lake area.

The building program lost a great deal of headway when the Legislature, in their last session, cut the State Aid program back to \$400,000. The Federal Aid bill passed the Senate but bogged down in the House of Representatives. What is going to happen in the Special Session of the Legislature or this coming session of Congress, is anyone's guess. Committees of Citizens are being organized throughout the state to work for restoration and increased State Aid. A committee of this sort could do a tremendous amount of good for education in the state.

The shortage of teachers in the elementary field is still very acute and the prospects for the next four years are not too promising. Too few young people are entering the elementary field and most of the people who are graduating from the teachers colleges are securing positions in the larger communities. We were very fortunate in getting Mr. Charles Boska to replace Mrs. Newell who resigned at the end of the last school year.

The high school tuition bill passed by the last session of the Legislature, is based on the average cost of operating a school. In the past receiving high schools (Warner and New London) were allowed to charge only the average cost of instruction which included teachers' salaries, text books and supplies. Under the new bill they can charge an average cost of operating the school which includes janitor service, fuel, lights and other costs. It will affect the sending-towns in that they will have to pay higher tuition. Concord is going to charge \$250. per pupil. New London and Warner will be charging \$200. per pupil.

Mrs. Williams has been doing an excellent piece of work in preparing the hot lunches. The meals have been very well planned, attractive and nutritious. She is working under the handicap of a very limited budget. A little

extra money from one source or another would be most helpful.

Things have been going well in the school and it has been a pleasant year.
